Furlough Begins

October-December 2020

Dear Friends and Family,

The month of October was actually a fairly busy month for me. I had to make sure my flat was packed up and arrange a moving company and a storage unit for all my belongings. Saying good by to the church and my kids was very difficult. I arrived in the Arizona at the beginning of November and I have to say I was not expecting just how hot it would be!

I was able to see a doctor that I needed to see and then in December I had a much-needed surgery. While I thought that was the end of it and things were all dealt with, my body had a different idea. Exactly one week after my surgery I ended up in the emergency room with what I found out to be Gallbladder issues. Unfortunately, one week after that I also tested positive for Covid. I am recovered from Covid praise the Lord. It was just confirmed a few days ago that I do have gallstones so now I am just waiting on all the boxes to be checked so I can see a surgeon.

I appreciate your continued prayers as I deal with these health issues. I am looking forward to being on the road full time for furlough very soon!

In His Service,

Deana Hewston
