

January 2023

### **New Baby!**

In our last update, we wrote about a baby coming the next month. As it turned out, Lynne had an emergency C-section with only ten minutes notice, and the baby came that month! Zoe Elizabeth Pilalas was born at seven pounds and seven ounces. She is in good health and is a very happy baby. The boys are very happy to have a baby sister, and Lynne and I are very happy to have a daughter! Please pray for continued good health for Lynne and Zoe.

### **Winter Revival**

Evangelist Richard Harper and his wife Kimberly came and preached and taught at Faith Baptist Church for our winter revival. They are always a blessing with their counsel, fellowship, and biblical preaching.

One man who is a good friend of ours and that we have been praying would get saved for a long time was saved!

### **Snowy Challenge**

I know weather is hardly an exciting thing to read and talk about, but here where we are serving is the snowiest accompanied base in the Air Force. We are expecting to have the heaviest year possibly since the first winter we were here. We are regularly tasked with shoveling our house and church, and it makes getting tracts to the neighborhoods a lot harder in the winter and spring. It is a serious challenge from December to April! Please pray that we are able to keep up with it physically and regarding facilities!

### **New Tracts, New Goals**

We ordered a few thousand new tracts to come soon and our goal for 2023 is to reach every American house off the military base at least twice in the year. The good thing about a military's rotating population is that there is a good chance that the door you knock on has a new occupant since the last time you knocked on it, and you can share the gospel with them!

Thank you always for your love and support! We could not be on the field reaching the military with the gospel and hoping to change lives with Bible principles if it were not for your help.

-Jesse Pilalas
